

technoport[®]

technology business incubator

Supporting creativity, innovation & entrepreneurship
since over 20 years

OUR MISSION

is to bridge your ideas to success
by creating the right ecosystem around
innovation and entrepreneurship

- Technology business incubator focused on startups, spin-offs and RDI centers of foreign companies
- Private company with public shareholders (Ministry of Economy and Société Nationale de Crédit et d'Investissement)

- Historically first incubator in Luxembourg
- HQ in Belval Science & Innovation Campus
- 16,000 m2 of offices & industrial facilities in 2 locations (Belval and Foetz)

MORE THAN A SIMPLE INCUBATOR

Laboratory to test new concepts for the ecosystem

We were pioneers in introducing/developing these concepts in Luxembourg:
Digital Fabrication Laboratory, Digital Experience Studio, Hackathons, Co-working space, Living Lab

Market & Technology knowledge

In 23 years of existence, we have acquired a broad knowledge on market and technology trends as well as industries' life cycle

Open innovation ecosystem builder

We support your company development by connecting you with the right partners thanks to our wide local and international networks

Support to foreign corporates and scale-ups

Beyond the incubation program for early-stage startups, we have a soft landing program for foreign corporates and a joint venture to support late-stage startups

OUR INCUBATOR

supports the launch and development of
innovative and technology-oriented companies in Luxembourg
with the right network, expertise and infrastructure
